On entering the plot we can see the well managed, simple garden and terrace areas, with an off-road, gated parking area. We enter the house through the glazed-in terrace on the main level. The house has been modernised and improved throughout to a very high standard and nowhere is this more evident than in the beautiful main living area, with semi-open-plan kitchen attached. There is also a guest wc on this level. Proceeding up the lovely bright staircase to the first floor, we find 2 double bedrooms, both with built in wardrobes and a modern bathroom. There is also a large terrace at this level with great views over the surrounding properties...

and countryside. Outside, we find a staircase leading down to the basement level, which has been converted into a separate guest accommodation and is beautifully decorated throughout, in the same style as the rest of this fantastic modern property.
